

nuclear increase
investments building
recession difficult
trillion united washington problems
debt national million laughter serious
spending single congress business recovery history
must government country every children reason
credit many took give need change going
insurance tax act time even start lives president
fight come right people small don college
cuts deficit clean work job economy next citizens
politics put health jobs also republicans making
afford democrats help know now america
finally two new bill big first
system energy class last let get financial pay
companies just can year world see values plan
budget home make one businesses week
across different americans american approach
working cut like years families create lobbyists
move face always office nation still care end
spirit house back security tonight support
problem taxes another made future
much steps banks invest states
investment senate public
women helped
